

Eastview High School

Ninth Grade Teams 2020-2021

OUR VISION

- ❶ All students will experience a successful transition to Eastview High School.
- ❷ All students will develop a strong foundation for academic and interpersonal success.
- ❸ All students, parents/guardians, teachers and staff will experience relationships that foster a sense of community.

WE WILL

Express Care – Challenge Growth – Provide Support – Share Power – Expand Possibilities

PROGRAM DESCRIPTION

At Eastview, we share a collective commitment to creating the conditions for a successful transition to high school for our incoming ninth graders. We strive to make the transition a positive experience for all. We are committed to preparing all students for post-secondary success, ready for college and careers. We believe that ***all students can learn***, regardless of background or past performance and experience.

Each ninth grader will be a part of a ninth-grade team, with faculty members who teach in the content areas of English/Language Arts and American Government. This team of teachers and students will stay together all year, engaging in team-building, goal-setting, learning, collaboration, inquiry and reflection. Collectively, these teachers will build ongoing relationships with students and their parents/guardians, and set the expectations and tone for their next four years at Eastview High School. Students can expect a challenging academic experience and rigorous curriculum, coupled with the support necessary for each individual student to succeed.

In addition, this team will help students grow in such areas as study skills, decision making, goal setting, problem solving, digital citizenship and an awareness of opportunities that are ahead at Eastview High School. We will also monitor student progress and partner with the student's larger school team (including school counselors, case managers, administrators and other support staff) as needed in order to ensure success. We believe that by developing these relationships, building these important skills and monitoring progress, we will increase the success for all students at Eastview High School.

PROGRAM FEATURES

❶ All students will experience a successful transition to EVHS.

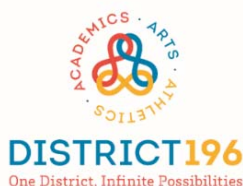

- ✓ connections with the school
- ✓ caring, nurturing environment
- ✓ monitor and feedback
